

NEPAL TO KOREA

The Complete Student Visa Guide

A Step-by-Step Handbook for Nepali Students (2025 – 2026)

This guide covers the complete 7-step journey:

- Step 1: Choosing Your University & Visa Type
- Step 2: Preparing Your Application Documents
- Step 3: Applying at the Korean Embassy in Nepal
- Step 4: Arriving in Korea — First 7 Days Checklist
- Step 5: Alien Registration Card (ARC / RC) Application
- Step 6: Setting Up Daily Life (Bank, SIM, Insurance)
- Step 7: Part-Time Work, Renewals & Life in Korea

Introduction: Why Korea?

South Korea has become one of Asia's most sought-after destinations for international students, and Nepali students are among the fastest-growing groups choosing Korea for their education. With world-class universities, advanced technology, a vibrant culture, and strong post-study career pathways, Korea offers an excellent academic environment.

This guide is designed specifically for Nepali students navigating the Korean student visa process. Whether you are starting from scratch or already have your university acceptance letter, this 7-step handbook will walk you through every stage — from choosing the right university to settling into daily life in Korea.

Key Information	Details
Student Visa Types	D-4 (Language Training), D-2 (Degree Program)
Embassy Contact (Kathmandu)	konepemb@mofa.go.kr Visa: nep Visa@mofa.go.kr
Embassy Hours	9:00–12:00 and 13:30–17:00, Monday–Friday
Embassy Phone	+977-1-537-0172 / 0417 / 7391 / 538-4972
Key Platform	HiKorea (www.hikorea.go.kr) — for all immigration needs
NHIS Helpline (English)	033-811-2000

⚠ Important Notice for 2025–2026

As of August 2025, Korea updated its student visa rules: the financial requirement was reduced from USD 20,000 to USD 15,400; undergraduate students can now work 25 hours/week on weekdays (postgraduates 35 hours/week), with unlimited hours on weekends and holidays; and post-graduation job search stay was extended to 3 years. Always verify current rules with the Korean Embassy in Kathmandu before submitting your application.

STEP 1 Choosing Your University & Visa Type

The foundation of your Korean student journey

1.1 Understanding Student Visa Types

There are two main student visa categories for Nepali students. Understanding which one applies to you is the very first decision to make:

Visa Type	Who It Is For
D-4 Visa (Language Training)	For enrollment in Korean language programs at university-affiliated language institutes. No prior Korean knowledge required. Most common starting point for Nepali students. Duration: typically 1–2 years.
D-2-1 Visa (Junior College)	For 2-year associate degree programs at junior colleges (전문대학).
D-2-2 Visa (Undergraduate)	For bachelor's degree programs at accredited 4-year universities.
D-2-3 Visa (Graduate School)	For master's degree programs.
D-2-4 (General Graduate School)	For doctoral (PhD) degree programs.
D-2-5 (Research Training)	For research-based postdoctoral or research training programs.
D-2-6 (Industrial Cooperation)	For industrial cooperation or work-study programs.

1.2 Choosing the Right University

Not every university in Korea is authorized to admit international students on student visas. Always verify that your chosen university holds accredited status under the Korean government's visa-issuance approval system.

As of the 2025–2026 review, 181 universities held accredited status. Twenty universities lost their eligibility starting fall 2026, so check the latest list before applying.

Tips for Choosing a University

- Check the Ministry of Education's accredited university list (Study Korea 300K campaign).
- Look for universities with a strong International Student Office — they will guide you throughout your stay.
- Consider location: Seoul, Busan, Daegu, and Incheon are popular; smaller cities may offer lower living costs.
- Research available scholarship programs (GKS — Global Korea Scholarship is the most prestigious).
- Confirm whether your program is taught in Korean or English. Korean-medium programs require TOPIK.

1.3 Language Requirements

Language proficiency is a key factor for both visa approval and academic success:

Test / Level	Requirement
TOPIK Level 3	Minimum for most Korean-taught degree programs (D-2 visa).
TOPIK Level 4	Preferred / required by most universities; needed for manufacturing jobs later.
IELTS 5.5–6.0	Required for English-medium programs (TOEFL iBT 71+ equivalent).
No test required	D-4 Language Training visa — you are going to Korea TO learn Korean.
Sejong Institute Certificate	Accepted alongside TOPIK for some applications.

STEP 2 Preparing Your Application Documents

Gather every document before approaching the embassy

2.1 General Documents (All Applicants)

These documents are required for both D-4 and D-2 visa applications:

Document	Details
Passport	Valid for at least 6 months beyond your intended stay. Include all previous passports if any.
Visa Application Form	Completed Korean visa application form (available at the embassy).
Photographs	Passport-size (3.5cm × 4.5cm), white background, taken within 6 months, no glasses.
Acceptance / Admission Letter	Official letter from your Korean university or language institute.
Bank Balance Certificate	Issued by your bank, showing sufficient funds (see financial requirements below).
Bank Statements	Last 6 months of account history — must show steady deposits, not a sudden large sum.
Study Plan / Motivation Letter	A well-written letter explaining your reason for studying in Korea (500–1000 words).
Sponsorship Letter	Required if a parent or guardian is funding your education. Include their ID and income proof.

2.2 Additional Documents for D-2 (Degree) Visa

Document	Details
Academic Certificates	SLC/SEE certificate, +2 certificate, and all marksheets. For graduate programs: bachelor's degree certificate and transcripts.
TOPIK Score Certificate	Level 3 or higher for Korean-taught programs; Level 4+ preferred.
IELTS / TOEFL Score	For English-medium programs: IELTS 5.5 or TOEFL iBT 71+.
Research Proposal	Required for graduate (master's / PhD) programs.
Character Certificate	From your school, college, or municipality.
Medical Certificate	Some universities / programs require a health certificate.

2.3 Financial Requirements

Demonstrating financial stability is one of the most critical parts of the Korean student visa application. The embassy carefully reviews both the balance amount and the account history.

Requirement	Details
D-4 Language Training	NPR 8–15 lakh minimum bank balance (approximately USD 6,000–11,000).
D-2 Undergraduate / Graduate	NPR 12–20 lakh or more (approximately USD 15,400+, reduced from USD 20,000 as of Aug 2025).
Account History	Gradual, consistent deposits over several months are preferred over sudden lump sums.
Sponsor Documents	If funded by parents: their income certificate, tax clearance, and formal sponsorship letter.
Statement Date	Bank statement must be issued within 30 days of your visa application date.

Financial Tip

Never make a sudden large deposit just before your application. Korean immigration officers are trained to spot 'arranged balances.' The account should show organic, consistent activity over at least 3–6 months. A bank statement with regular small deposits is more convincing than a large one-time transfer.

STEP 3 Applying at the Korean Embassy in Nepal

From document submission to visa in hand

3.1 The Embassy Application System

Korea uses a batch (collective) application system for Nepali students. This is important to understand because your application is submitted through your university, not individually in most cases.

Aspect	Details
Batch Submission	Universities submit student applications collectively. Only one Nepali representative per university handles the embassy submission.
Document Verification	Universities first apply for consular document verification, then for visas. Both have separate intake windows each semester.
Individual Appointments	If your university has more than 50 Nepali students, those outside the batch must book individual consular appointments.
Frequency	Batch submissions happen once per semester. Missing the window means waiting for the next one.
University Responsibility	Universities must email a list of students and required information during the application period.

3.2 Step-by-Step Application Process

1. Receive your official Admission / Acceptance Letter from your Korean university.
2. Gather ALL required documents (see Step 2). Have everything translated and notarized if needed.
3. Submit your documents to your university's International Office or designated Nepali representative.
4. University submits your application to the Korean Embassy in Kathmandu during the designated intake window.
5. Wait for document verification results (usually 1–2 weeks).
6. Once verification is complete, the university submits the actual visa application batch.
7. Attend any required embassy interview if called (bring all originals).
8. Receive your D-2 or D-4 visa, typically within 3–4 weeks total from complete application submission.

Embassy Contact Information

Address: Korean Embassy, Maharajgunj, Kathmandu, Nepal
Phone: +977-1-537-0172 / 0417 / 7391, 538-4972
General Email: konepemb@mofa.go.kr
Visa Section: nep_visas@mofa.go.kr

Document Verification: nep_docs@mofa.go.kr

Operating Hours: 09:00–12:00 and 13:30–17:00 (Monday–Friday)

⊖ Do NOT Attempt Tourist Visa Switching

You cannot arrive in Korea on a C-3 tourist visa and switch to a D-2 or D-4 student visa while inside Korea. You must obtain the correct student visa before departure from Nepal. Attempting to switch visa status illegally will result in fines, visa denial, or deportation.

STEP 4 Arriving in Korea — First 7 Days Checklist

The critical first week that sets up everything else

4.1 Before You Board the Plane

Prepare these items before leaving Nepal:

- Print and carry your visa, passport, admission letter, and all original documents in a dedicated travel folder.
- Carry at least USD 500–1,000 in cash for immediate expenses (SIM card, transport, food, initial deposits).
- Book airport pickup or know your route from Incheon International Airport to your university / accommodation.
- Download offline Korean maps (Naver Maps / KakaoMap) on your phone.
- Inform your university International Office of your arrival date.
- [traveling by train cost you a lot cheaper]
- Purchase travel insurance valid from day 1 of arrival (required before Korean NHIS kicks in after ARC registration).[this one is optional so leave it]
- Prepare at least 4 passport-size photos (3.5cm × 4.5cm, white background) for the ARC application.

4.2 At Incheon International Airport

Task	What To Do
Immigration & Entry	Present your passport with the student visa. Answer questions simply and clearly. State your university name and program. You have pre-study permission — don't be nervous.
Baggage & SIM Card	Collect your luggage. Buy a prepaid SIM card at the airport (SKT, KT, LG U+ booths are available in arrivals). Get a data SIM immediately — you need Google Maps to get around.
Currency Exchange	Exchange some USD or NPR at the airport for immediate cash needs. Exchange rates at city banks/post offices are usually better.
Airport Railroad (AREX)	Take the AREX express train to Seoul Station (43 min, ₩9,500) or the commuter train (about 60 min, ₩4,150). Most budget-friendly option to reach Seoul.
KakaoTaxi / Buses	For cities outside Seoul, take express buses or KakaoTaxi. Download KakaoTaxi app before arriving.

4.3 First 7 Days Priority Checklist

Timeline	Priority Task
Day 1	Arrive, check into accommodation, buy SIM card, eat and rest.
Day 1–2	Report to your university International Student Office. Attend orientation if available.
Day 2–3	Get your medical examination done (TB + HIV test required for ARC). Book appointment in advance.[optional]
Day 3–5	Make your HiKorea immigration appointment for ARC registration (hikorea.go.kr).[optional most of time university will take you for ARC registration it might take some time though.]
Day 5–7	Open a bank account (Woori, Shinhan, KB Kookmin Bank recommended for foreigners). You need ARC or your university's help.
Within 1st week	Confirm your accommodation address registration — you need this for ARC and bank account.
Within 90 days	Complete your ARC (Alien Registration Card) application. This is a legal requirement.

Korean Emergency Numbers to Save Immediately

Police: 112

Fire / Ambulance: 119

Korea Immigration Service: 1345 (multilingual support available)

NHIS (National Health Insurance): 033-811-2000 (English available)

Korea Tourism Hotline: 1330 (24hr, English / Nepali translation available)

STEP 5 Alien Registration Card (ARC / RC) Application

Your most important official document in Korea

5.1 What Is the ARC / Residence Card?

The Alien Registration Card (ARC), now officially called the Residence Card (RC), is a mandatory identification card issued by the Korea Immigration Service. It functions as your official Korean ID and is essential for virtually every aspect of life in Korea.

[for ARC card registration university will help so you don't have to worry]

Why You Need the ARC Immediately

- Opening a Korean bank account (Woori, Shinhan, KB, etc.)
- Getting a Korean mobile phone plan (monthly plan, not prepaid)
- Signing a rental lease for your accommodation
- Enrolling in the National Health Insurance Service (NHIS)
- Using delivery apps (Coupang, Baemin, Yogiyo)
- Applying for a part-time work permit
- It is ILLEGAL to take a degree-seeking program without ARC registration.

5.2 ARC Application: Required Documents

Document	Details
Integrated Application Form	Download from HiKorea (www.hikorea.go.kr) or pick up at the immigration office.
Passport	Original + one clear photocopy of the information page.
Passport Photos	2 photos: 3.5cm × 4.5cm, white background, taken within 6 months.
Medical Examination Results	Must include TB (tuberculosis) and HIV test results. Envelope must remain sealed.
Proof of Accommodation	Dormitory: confirmation letter from your university's dormitory office + payment receipt. Off-campus: copy of rental contract (lease must be in your name, or include landlord's ID + permission letter). Goshiwon (고시원): rental contract + payment receipt + business registration of landlord.
Application Fee	KRW 35,000 in cash (bring exact change). Mailing fee approximately KRW 3,000 extra if you want it sent to your address.

5.3 Step-by-Step ARC Application Process

9. Complete your medical examination (TB + HIV test) at a designated hospital. Book ahead as appointments fill up.
10. Download and fill the integrated application form from HiKorea (www.hikorea.go.kr).
11. Book your immigration appointment online via HiKorea — do not walk in without an appointment.
12. Visit the immigration office with all required documents. Bring originals AND photocopies of everything.
13. Submit your application and pay the KRW 35,000 fee in cash.
14. Wait 3–4 weeks. You can pick up the card at the office or pay for mail delivery.
15. Once received, your ARC number activates your NHIS enrollment automatically.

Apply Within 90 Days of Arrival — No Exceptions

You must apply for your ARC within 90 days of arriving in Korea. Failing to do so results in fines (starting at KRW 100,000 and increasing). Additionally, it is illegal to begin a degree program without completing ARC registration. Apply as early as possible — don't wait until the deadline.

5.4 After Receiving Your ARC

- Your 13-digit ARC number becomes your Korean registration number for all official services.
- NHIS enrollment happens automatically — you will start receiving monthly premium bills.
- Report any change of address to the immigration office within 15 days of moving.
- If you plan to leave Korea for more than one year, obtain a Re-Entry Permit from the immigration office first.
- Keep your ARC with you at all times — it is legally required to carry it.

STEP 6 Setting Up Daily Life

Bank account, SIM card, health insurance, housing, and more

6.1 Opening a Korean Bank Account

A Korean bank account is essential for receiving scholarships, paying tuition, receiving your salary from part-time work, and managing daily expenses.

Topic	Details
Best Banks for Foreigners	Woori Bank, Shinhan Bank, KB Kookmin Bank (all have English-language services and global apps).
What to Bring	Passport, ARC card, university enrollment certificate (재학증명서), and your Korean phone number.
Timing	Some banks may open a limited account before ARC with just your passport and university letter — ask your International Office for their partner bank.
Apps	Shinhan SOL, KB Star Banking, Woori WON Banking — all have English language settings.
Wire Transfers	Use KakaoBank, Wise, or Hana Bank for cheaper international remittances to Nepal.
ATM Withdrawal	Most 7-Eleven GS25 and CU convenience store ATMs accept foreign cards (Visa/Mastercard).

6.2 Getting a Korean SIM Card / Phone Plan

Option	Details
Airport Prepaid SIM	Buy at Incheon Airport immediately upon arrival. SKT, KT, LG U+ booths in Arrivals. Good for first 1–3 months while waiting for ARC.
Monthly Plan (after ARC)	Once you have ARC, get a monthly plan — much cheaper (around KRW 25,000–45,000/month for data + calls).
MVNOs (Budget Options)	KT M mobile, Hello Mobile, U+ Mobile — budget virtual networks using the same infrastructure. Often 30–50% cheaper than major carriers.
eSIM	eSIMs are available for most modern phones. Check compatibility before arriving.
Calling Nepal	Use KakaoTalk (free WiFi calls), Viber, or WhatsApp to call family in Nepal for free over WiFi/data.

6.3 National Health Insurance (NHIS)

Korea has one of Asia's most advanced healthcare systems. All international students on D-2 or D-4 visas staying 6+ months are mandatory enrolled in the National Health Insurance Service (NHIS) since March 2021.

Topic	Details
Enrollment	Automatic upon ARC registration. You do not need to visit a separate NHIS office.
Monthly Premium (2025)	KRW 76,390 per month (~USD 57). D-2 students receive a 50% discount, making it approximately KRW 38,195/month.
Coverage	NHIS covers 60–70% of costs: doctor visits, hospital stays, surgery, prescriptions, basic dental, and maternity care. You pay 30–40% co-pay.
Payment	Set up automatic bank debit (자동이체) at your bank. Bills arrive by the 10th of each month.
Consequences	Unpaid NHIS premiums will result in denial of your visa renewal. Pay on time every month.
Before ARC	Purchase travel insurance valid from your arrival date. You are NOT covered by NHIS until ARC is processed (1–2 months).
App	Download "The건강보험" app to manage your insurance. Supports English.

Medical Tip for New Arrivals

For minor illnesses (cold, fever, stomach issues), go to a local clinic (의원, "Uiwon") first — not a big hospital. Clinics are faster, cheaper, and accept NHIS. A typical clinic visit costs around KRW 3,000–5,000 after NHIS coverage. For emergencies, go to a hospital emergency room (응급실). Show your ARC card at every hospital visit.

6.4 Accommodation Options

Type	Description & Estimated Cost
University Dormitory (기숙사)	Safest and most convenient option for new students. Apply as early as possible — spots fill fast. Costs: KRW 200,000–500,000/month. All utilities often included.
Goshiwon (고시원)	Budget single-room accommodation. Very small rooms, shared bathroom, often includes WiFi and sometimes meals. Cost: KRW 250,000–450,000/month.
Oneroom (원룸)	Studio apartment. More privacy. Cost: KRW 300,000–600,000/month + deposit (보증금) of KRW 5–10 million (refundable).
Gositel (고시텔)	Slightly larger than Goshiwon, private bathroom. Cost: KRW 350,000–550,000/month.

Shared House / Flatshare	Share a full apartment with other students. Good for saving money and making friends. Apps: Zigbang (직방), Dabang (다방).
Jeonse / Wolse	Long-term lease options. Jeonse requires a large lump-sum deposit (no monthly rent). Only recommended after fully understanding the Korean rental system.

6.5 Essential Apps for Life in Korea

App	Purpose
Naver Maps / KakaoMap	Navigation. Naver Maps is the most accurate for public transit in Korea.
KakaoTalk	Korea's most used messaging app. Every Korean uses it. Set this up first.
Baemin / Coupang Eats	Food delivery apps. Wide range of restaurants including some Nepali / South Asian food.
Coupang	Amazon equivalent. Fast delivery, great prices for daily supplies.
Zigbang / Dabang	Apartment and room searching apps.
KakaoTaxi / UT	Ride-hailing apps (like Uber).
HiKorea	Official immigration portal — book appointments, check visa status, apply for extensions.
Naver Papago	Best Korean–English–Nepali translation app. A must-have.
Toss / KakaoBank	Mobile banking apps. Toss is especially easy for beginners.

STEP 7 Part-Time Work, Visa Renewals & Long-Term Life

Building your life and future in Korea

7.1 Part-Time Work Rules for Students

Working in Korea as a student can help offset living costs, but you must obtain official permission first. Working without permission is illegal and can result in heavy fines or deportation.

Visa / Level	Work Rules
D-4 Visa (Language Training)	No work allowed for the first 6 months. After 6 months, apply for part-time work permit. Must maintain over 90% attendance. TOPIK Level 2 or higher required.
D-2 Visa Undergraduate	May apply for part-time work permit from start of enrollment. TOPIK Level 3+ = 25 hours/week on weekdays. Below TOPIK Level 3 = 10 hours/week. Unlimited hours on weekends and holidays.
D-2 Graduate Students	TOPIK Level 4+ = up to 30 hours/week on weekdays. Unlimited weekends/holidays.
GPA Requirement	Must maintain a minimum GPA of C (2.0/4.5 scale) or above to be eligible.
Attendance Requirement	Must maintain over 90% class attendance to qualify and maintain work permission.

7.2 How to Get a Part-Time Work Permit

16. Confirm you meet all eligibility requirements (GPA, attendance, TOPIK level, 6-month rule for D-4).
17. Go to your university's International Student Center and request a part-time work permit application with a school seal.
18. Gather required documents: application form, passport, ARC, enrollment certificate, TOPIK certificate, bank statement.
19. Submit at your local immigration office or apply through HiKorea online (all documents must be scanned as PDF/JPG for online submission).
20. Wait for approval. Do NOT start working before receiving official approval.
21. Start working legally with your employer. Ensure you receive a proper employment contract.

⚠ Never Work Without Official Permission

Working without the official part-time work permit is illegal. First offense fines range from KRW 2 million to KRW 10 million (approximately USD 1,500–7,500). Second offense can result in deportation and re-entry bans. Illegal employment history also affects your future visa renewal and any applications for work visas (E-7) after graduation. Always get written approval first.

7.3 Allowed & Prohibited Jobs for Students

Category	Details
Allowed Jobs	Restaurant / cafe work, convenience store (편의점) staff, tutoring (English, Chinese, etc.), retail assistant, on-campus jobs (library, research assistant), manufacturing (TOPIK 4+ only), internships in your major field during vacation.
Prohibited Jobs	Construction work, delivery riding (food delivery on motorcycles), door-to-door sales, adult entertainment venues, any job that violates sojourn status.
Minimum Wage (2026)	Approximately KRW 10,030+ per hour. Confirm the current rate at moel.go.kr. Employers cannot pay below minimum wage.
Income Tax	Approximately 3.3% withheld from your pay. File for a tax refund at year-end through Hometax (홈택스) — many students get a small refund.
Insurance	If working 15+ hours/week, employer must enroll you in 4 social insurance types. Industrial accident insurance is required from day 1 regardless.

7.4 Visa Renewal

Your D-2 or D-4 visa must be renewed before it expires. Renewals happen at your local immigration office or through HiKorea.

Topic	Details
When to Renew	Apply at least 1–2 months before your current visa expiry date.
Where to Apply	Local immigration office or online via HiKorea (www.hikorea.go.kr).
Key Documents for Renewal	Passport, ARC, enrollment certificate, bank statement, NHIS payment receipts (no arrears), academic transcript showing satisfactory grades.
NHIS Payment Critical	Unpaid NHIS premiums will result in automatic renewal denial. Ensure all premiums are paid before applying.
Address Changes	Report any change of address to immigration within 15 days. Failure results in fines.
Re-Entry Permit	If leaving Korea for 1 year or more, get a Re-Entry Permit before departure. Leaving without it may invalidate your visa.

7.5 After Graduation: Staying in Korea

Path	Details
D-10 Job Seeker Visa	After graduation, you can apply for a D-10 (job seeker) visa. As of August 2025, graduates can now stay up to 3 years (with a possible 2-year extension) to find employment — extended from the previous 6 months.
E-7 Work Visa	Once you secure a job, your employer sponsors your E-7 (Skilled Employee) work visa.
F-2 Long-Term Residence	After accumulating enough KIIP points, visa stability, and time in Korea, you may qualify for F-2 long-term residence visa.
F-5 Permanent Residence	Korea permanent residency is attainable after 5+ years of continuous legal stay.
KIIP Program	Enroll in the Korea Immigration Integration Program (KIIP) during your studies to earn points toward long-term visa status.

Quick Reference: Common Mistakes to Avoid

Common Mistake	What to Do Instead
✗ Applying Without All Documents	Missing even one document can result in rejection. Use this guide as a checklist and double-check with your embassy.
✗ Sudden Bank Deposits	A large lump sum just before applying raises red flags. Show 3–6 months of consistent banking history.
✗ Ignoring the ARC Deadline	Apply within 90 days of arrival. Late registration = fines and potential legal issues.
✗ Working Without a Permit	Always get official written permission before starting any paid work. First offense fines are severe.
✗ Unpaid NHIS Premiums	Set up auto-debit from day one. Unpaid premiums block visa renewals.
✗ Not Reporting Address Changes	You must report new addresses to immigration within 15 days of moving.
✗ Choosing Unaccredited Universities	Verify your university holds visa-issuance accredited status before paying any fees.
✗ Arriving on Tourist Visa to Switch	You cannot switch from a C-3 tourist visa to a student visa inside Korea. Always get the correct visa before departure.

N P A Message to Every Nepali Student 🇰🇷

The journey from Kathmandu to Korea is full of paperwork and patience — but it is absolutely worth it.

Thousands of Nepali students are thriving in Korea today. Prepare well, follow each step carefully, and you will join them. 🙏

This guide is for informational purposes only. Always verify current requirements with the Korean Embassy in Kathmandu and your university's International Office before submitting any application.
